

## WIAAP Lead Screening ECHO

The Wisconsin Chapter of the American Academy of Pediatrics is recruiting up to 20 pediatric primary care and family medicine practices to join a 7-month learning collaborative aimed to improve access to quality healthcare for children affected by lead poisoning.

Practices will engage in the ECHO (Extension for Community Healthcare Outcomes) model™, a telementoring platform that leverages video conference technology to connect experts with primary care teams in local communities; fostering an “all teach, all learn” approach.

### Benefits of Participating

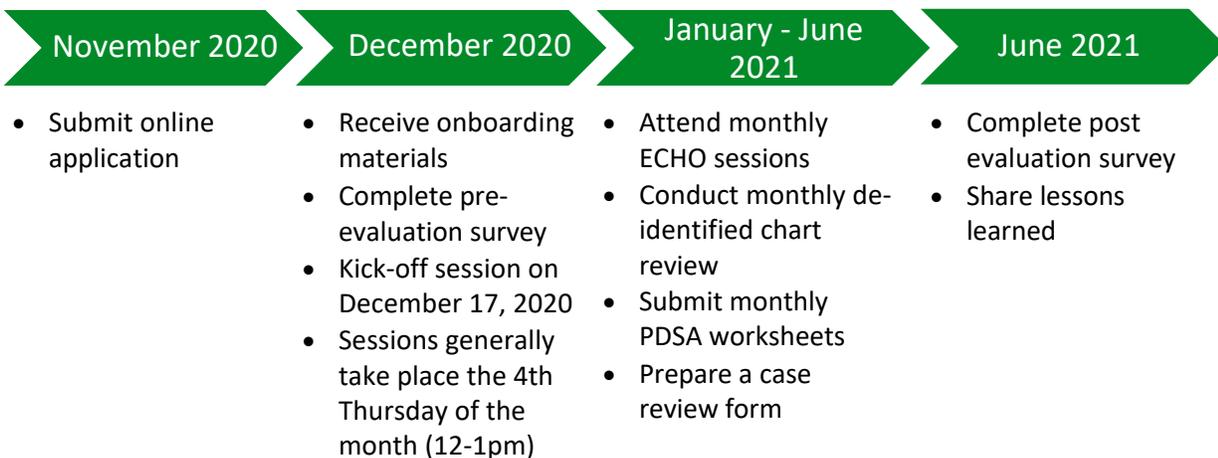

- ✓ Improve access to quality care for patients affected by childhood lead poisoning
- ✓ Increase knowledge regarding best practices for preventing and treating lead poisoning in children
- ✓ Learn new quality improvement (QI) methods and track improvement through monthly data collection to achieve desired outcomes in your practice
- ✓ Network and problem solve with others
- ✓ *Participating pediatricians will have the opportunity to earn American Board of Pediatrics Part 4 Maintenance of Certification (MOC) credit (pending approval).*

### Who should apply:

Practices providing primary care who:

- ✓ Want to improve the quality of care for their patients around prevention and treatment of lead poisoning
- ✓ Can assemble a team of members that may include:
  - A primary care physician
  - A nurse
  - An additional team member such as front office person, practice manager, or care coordinator
- ✓ Provide pediatric primary care to patients 6-72 months of age

### Timeline:

### Interested?
